JANOG Update  
[APOPS@APNIC20](mailto:APOPS@APNIC20)

# JANOG Meetings all around Japan

- Most meetings were held in Tokyo
- But recent three and coming one were/will be held in other cities
- The latest JANOG had Randy Bush as a presenter

# Agenda for JANOG16 in Fukuoka

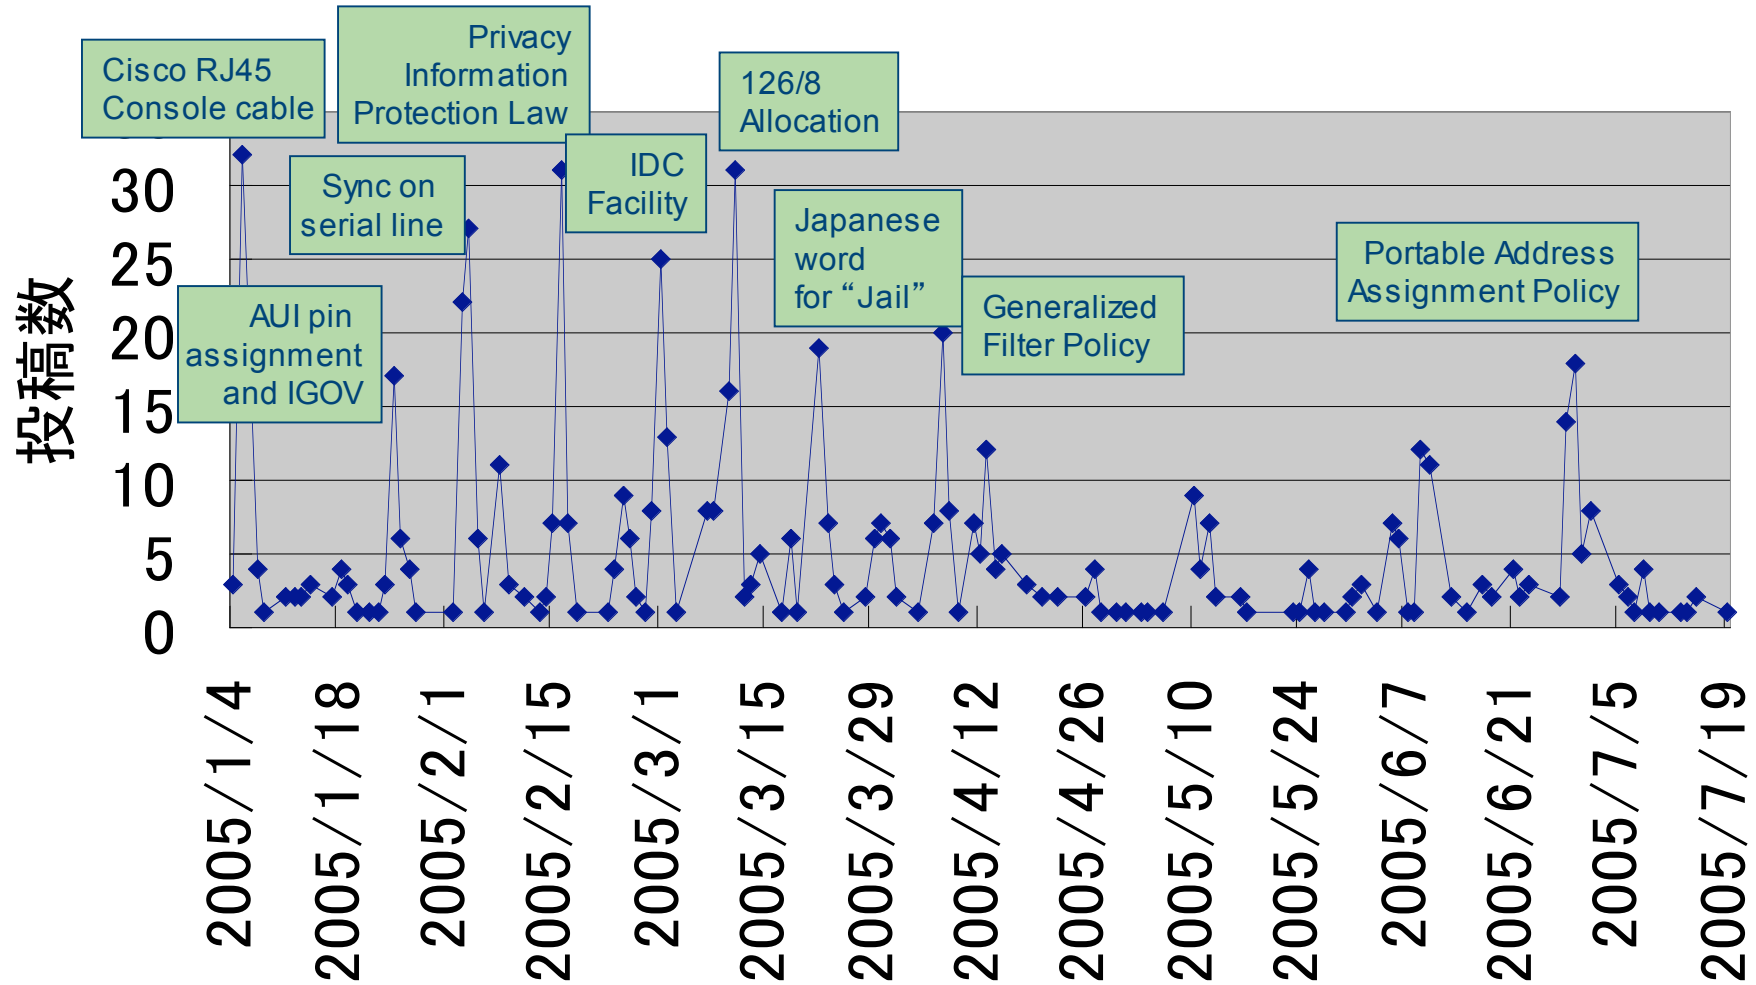

- Routing myths and realities by Randy Bush
- IRR and BGP security
- NSP-SEC-JP update
- IDC Facility which endures big earthquakes
- How a 19-inch rack is cooled – A big traffic generator's experiment
- IBM zSeries – a Linux running mainframe
- Seven seasoned vendor engineers chat about beyond 10G
- Internet emulation within Isolated Infection Network
- Mail systems for SPAM era
- High Reliability Organization for NOCs and SOCs
- Personal Information Protection in JANOG and JPNIC
- IPv6 and its current movement in address policy
- Why DNS reverse resolution is so slow
- Practice in Internet live distribution of pro baseball games

# Mailing list traffic in recent 6 months

# JANOG Operations

JANOG Update

APOPS @ APNIC20

**JANOG**

# Compliance to Personal Information Protection Law

- An entity with 5000+ personal information is required to comply with the law
  - Notice of the purpose of collecting such information, appropriate handling and NDA
- JANOG has the distribution member list with 5000+ e-mail address
  - Lawyer consultation was concluded that JANOG needed to comply with it in order to avoid the risk of lawsuits
- A working group was formed to prepare the process and documents

# Donation Program

## – a funding model of JANOG

- JANOG has neither revenue nor expense
  - Servers and IDCs are donated, Operations by volunteer
  - The expenses for the meetings are fully born by the host companies
- Lawyer consultation did cost
  - Collecting contribution was a possible solution, but it would introduce revenue and book-keeping burden into JANOG
- Solution – a generalized donation program
  - Ask Industry firms for pay the cost directly, for and instead of JANOG, with some logo exposure and acknowledgement in return

# Thank you!
