APNIC Training on 2nd VNNIC OMM

Main Content	Speaker
Whois database Intro	Mr. John H'ng
Whois database Protection and Updates	Mrs. Miwa Fujii
Internet Routing Registry	Mr. Son Tran
Reverse DNS	
IPv6	
IPv6 Reverse delegation	
SPAM and network abuse	

New IP fee structure come in to effect

- The new fee structure was based on the principle “the much member use IP the more member gain fee discount”.
- This principle of the new fee structure is quite different from the old one in which fee is equal to all level.

New IP fee structure in compare with the old one

Level	IPv4 Space From – To (unit /24)	Old fee structure (VND)	New Fee Structure (VND)
1	1 - 4 (= /22)	2.000.000 - 8.000.000	8.000.000
2	5 - 8 (= /21)	10.000.000 - 16.000.000	16.000.000
3	9 - 16 (= /20)	18.000.000 - 32.000.000	32.000.000
4	17 - 32 (= /19)	34.000.000 - 64.000.000	41.000.000
5	33 - 64 (= /18)	66.000.000 - 128.000.000	72.000.000
6	65 - 128 (= /17)	130.000.000 - 256.000.000	80.000.000
7	129 - 256 (= /16)	258.000.000 - 512.000.000	88.000.000
8	257 - 512 (= /15)	514.000.000 - 1.024.000.000	206.000.000
9	513 – 1024 (= /14)	1.026.000.000 - 2.048.000.000	238.000.000
10	1025-2048 (= /13)	2.050.000.000 - 4.096.000.000	285.000.000

Plan in 2006

- Upgrade APNIC membership to very large tier.
- Rebuild VNNIC Whois Database that will be almost mirror from APNIC Database.
- Hold 3rd VNNIC Open Member Meeting.

**THANK YOU FOR YOUR
ATTENTION**
