

SUMMARY

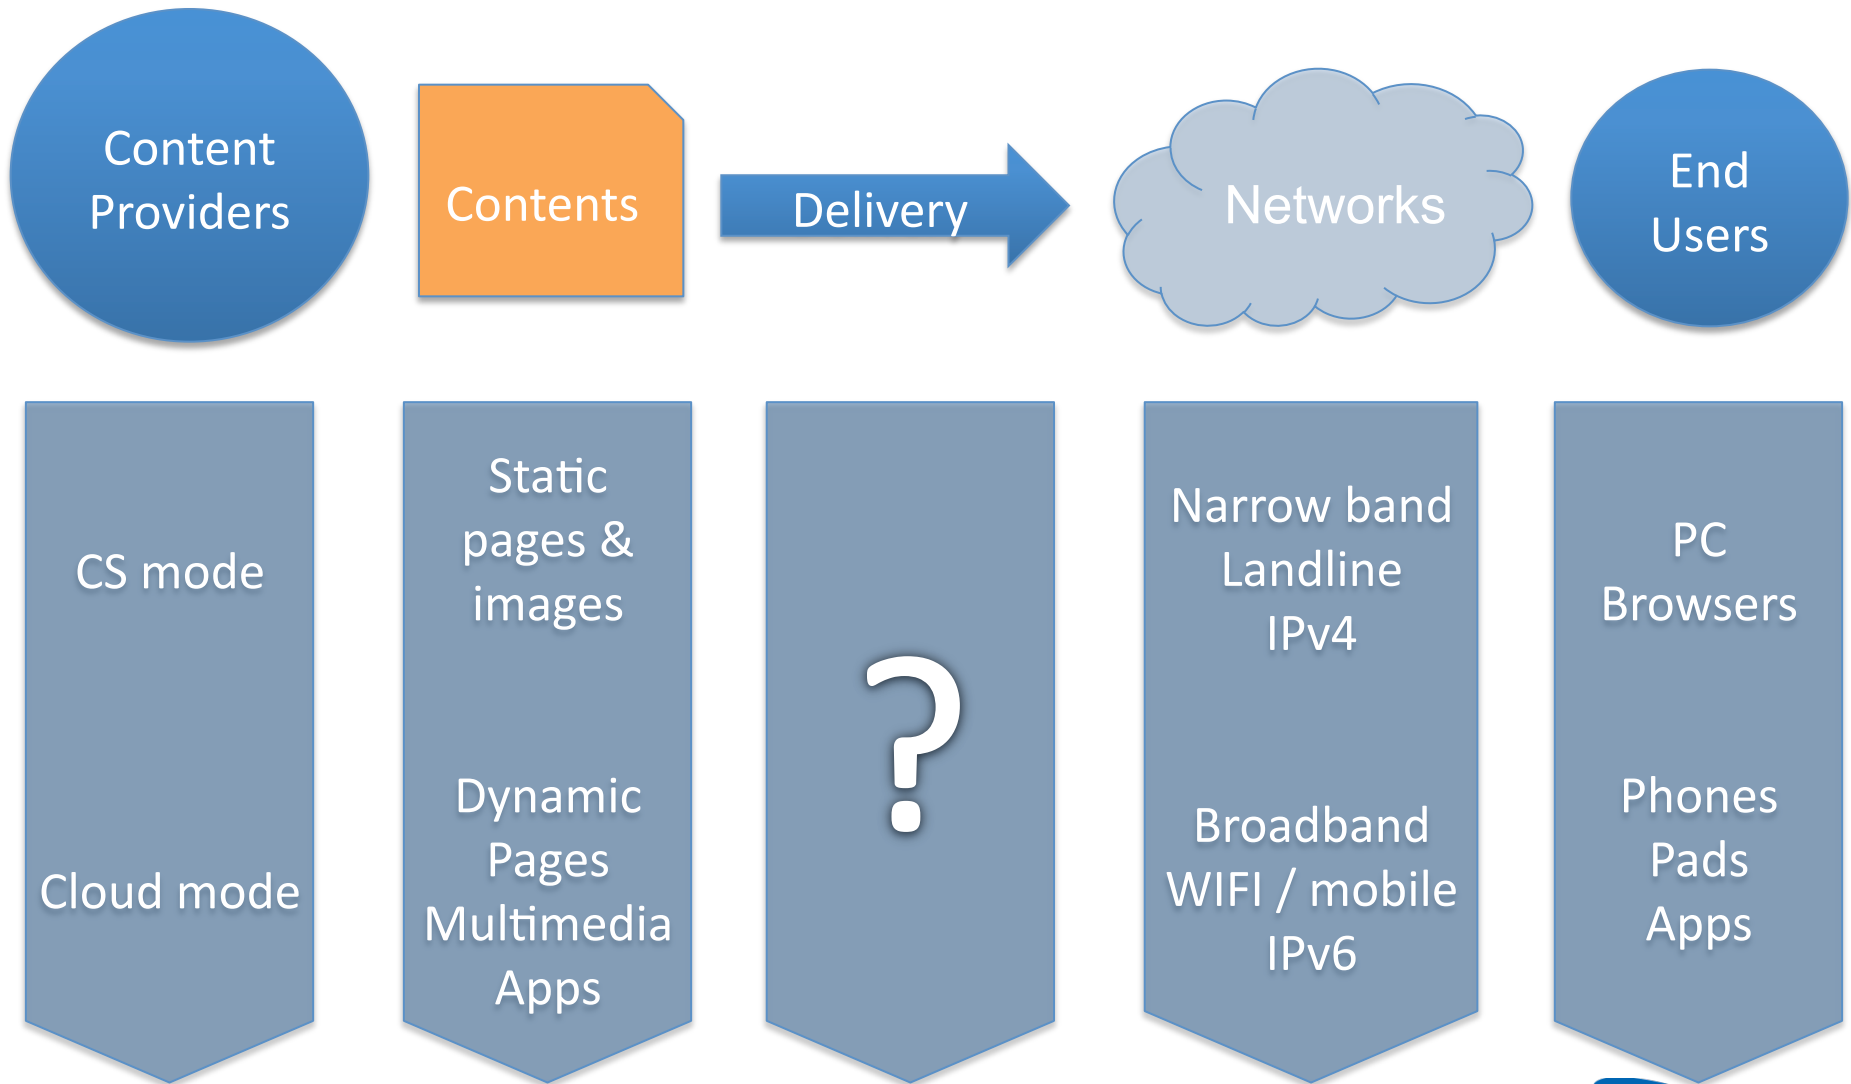

- Strengths of CDNs
- Changes on Internet
- CDN role in IPv6 transaction
- ChinaNetCenter Practice
- Next Step & Future Plans

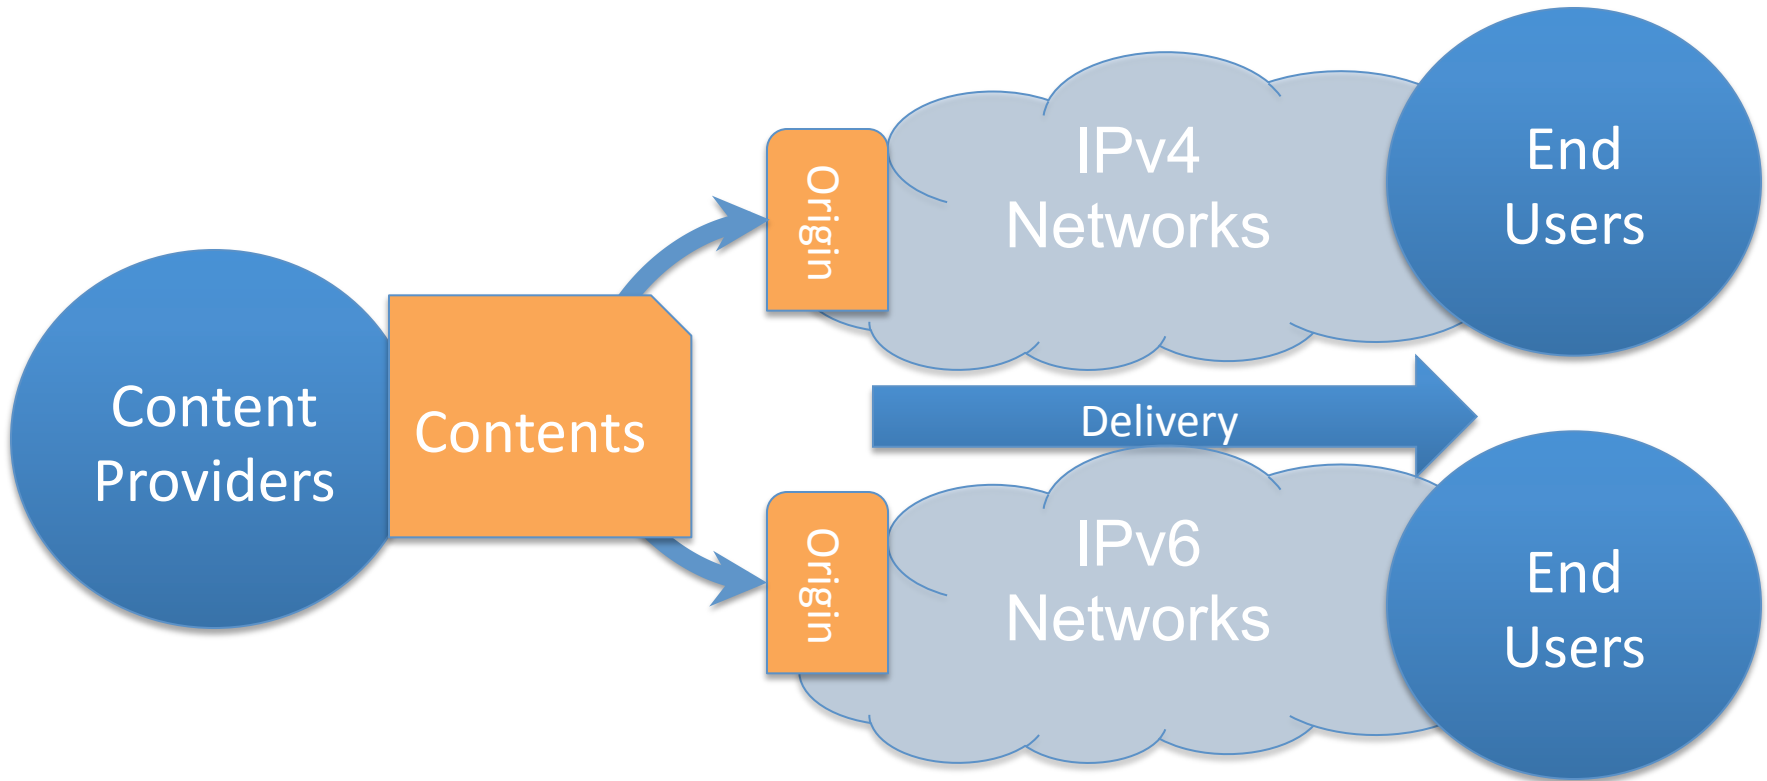

What have CDNs been doing

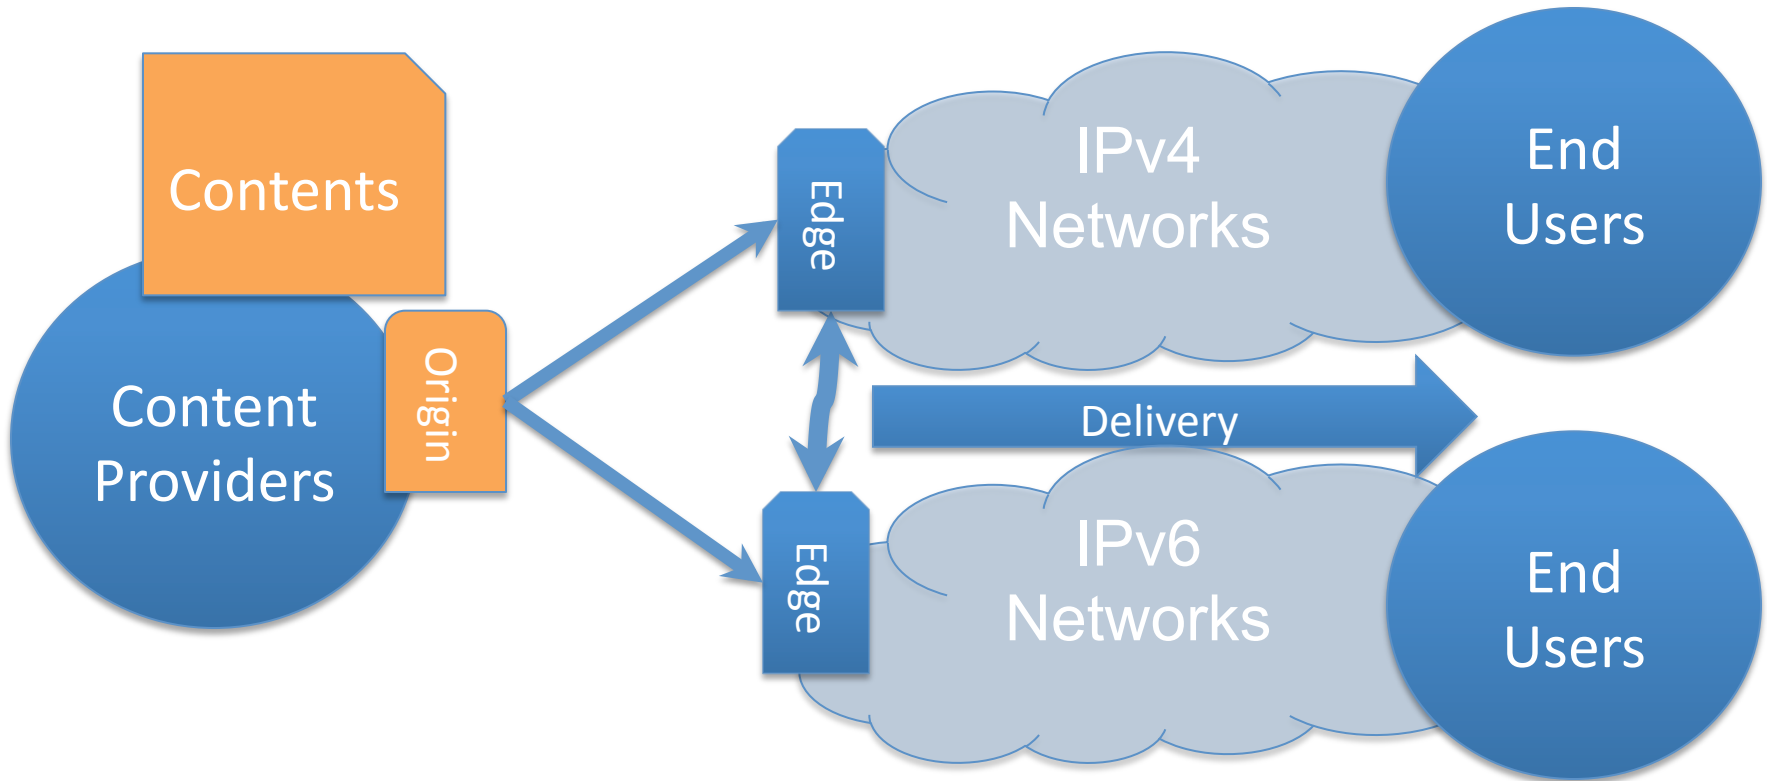

Changes we see on Internet

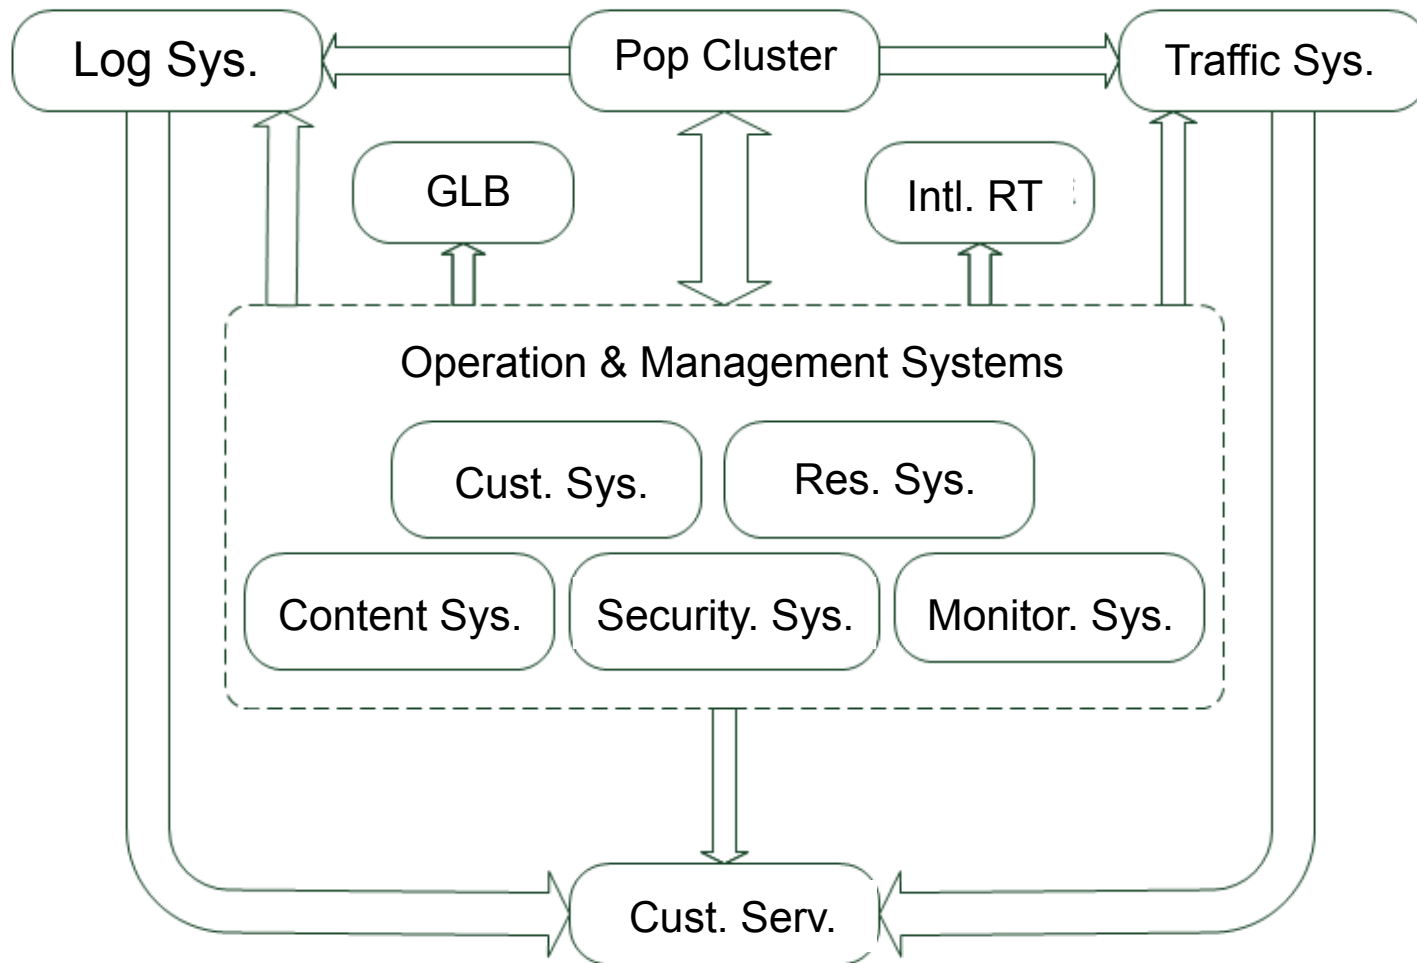

CPs in IPv6 transaction

CDN role in IPv6 transaction

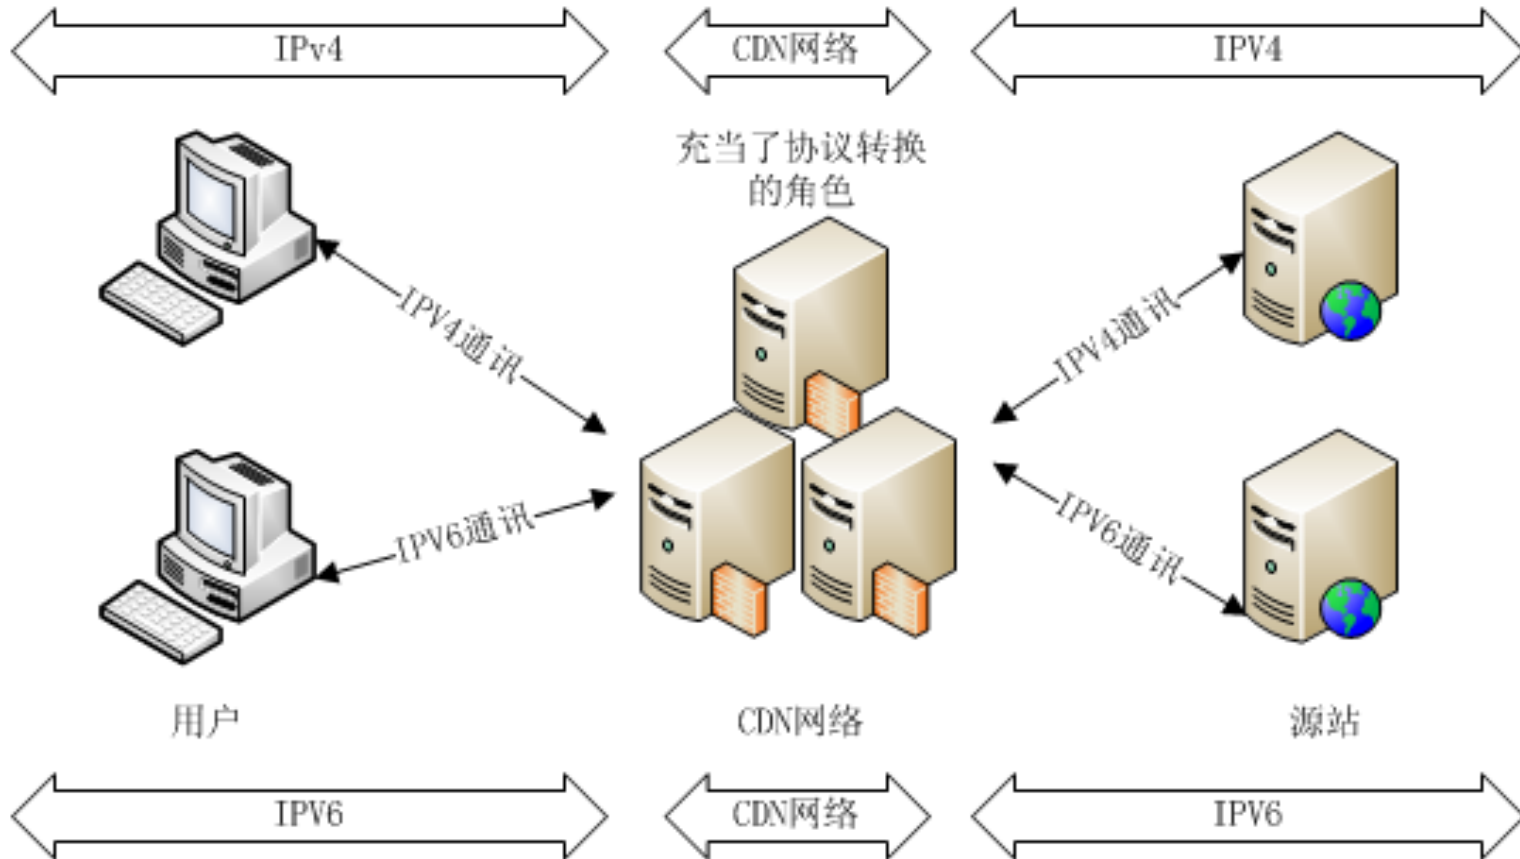

ChinaNetCenter Practice

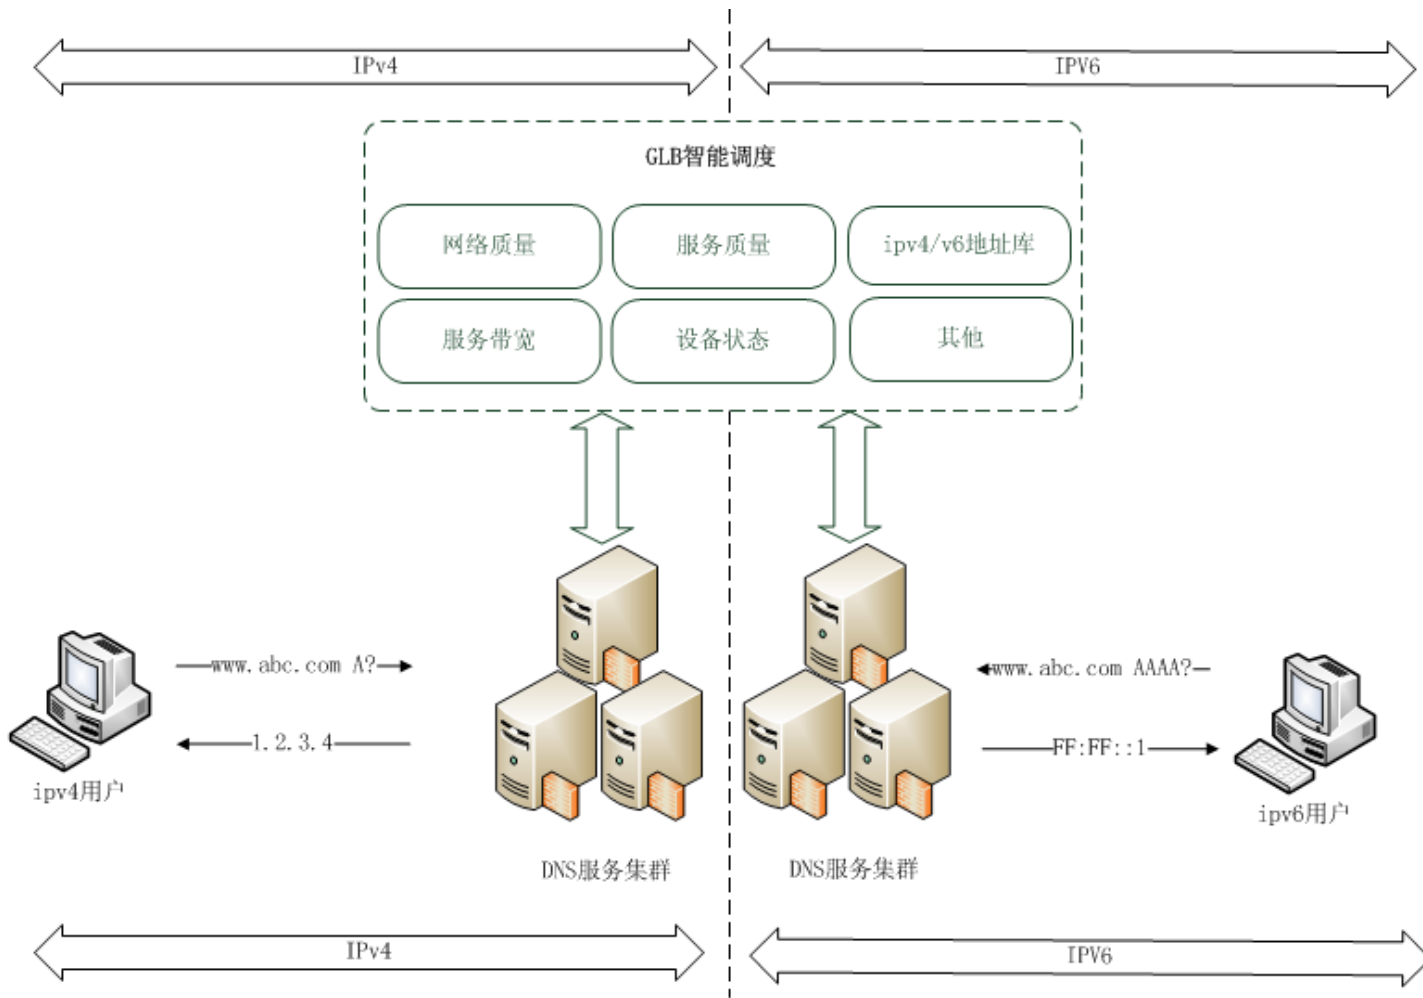

IPv6 structure of ChinaNetCenter

ChinaNetCenter Practice

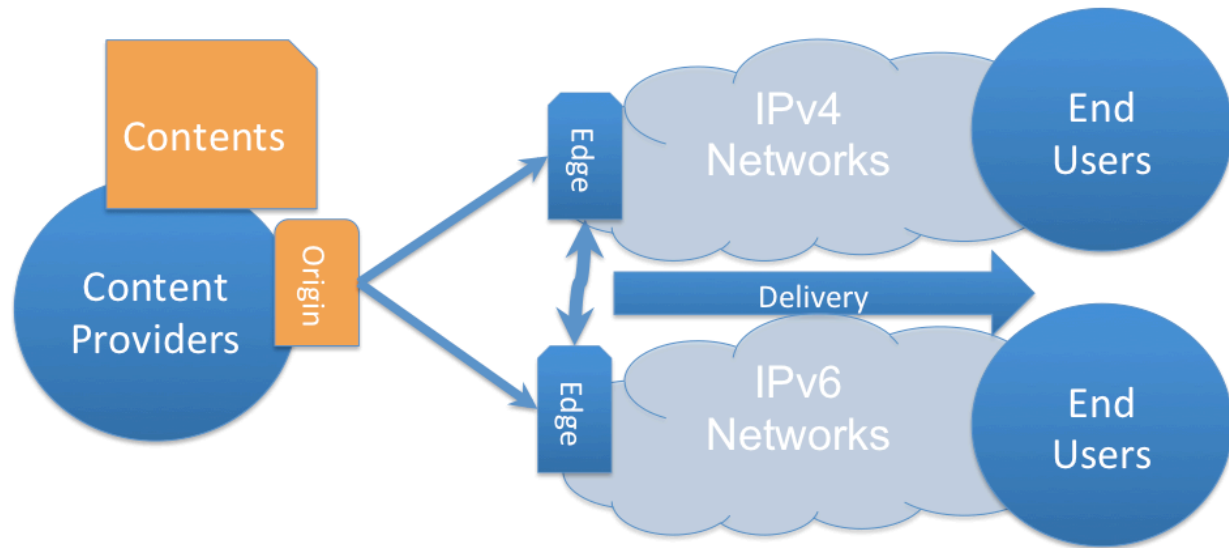

On Pops of ChinaNetCenter

ChinaNetCenter Practice

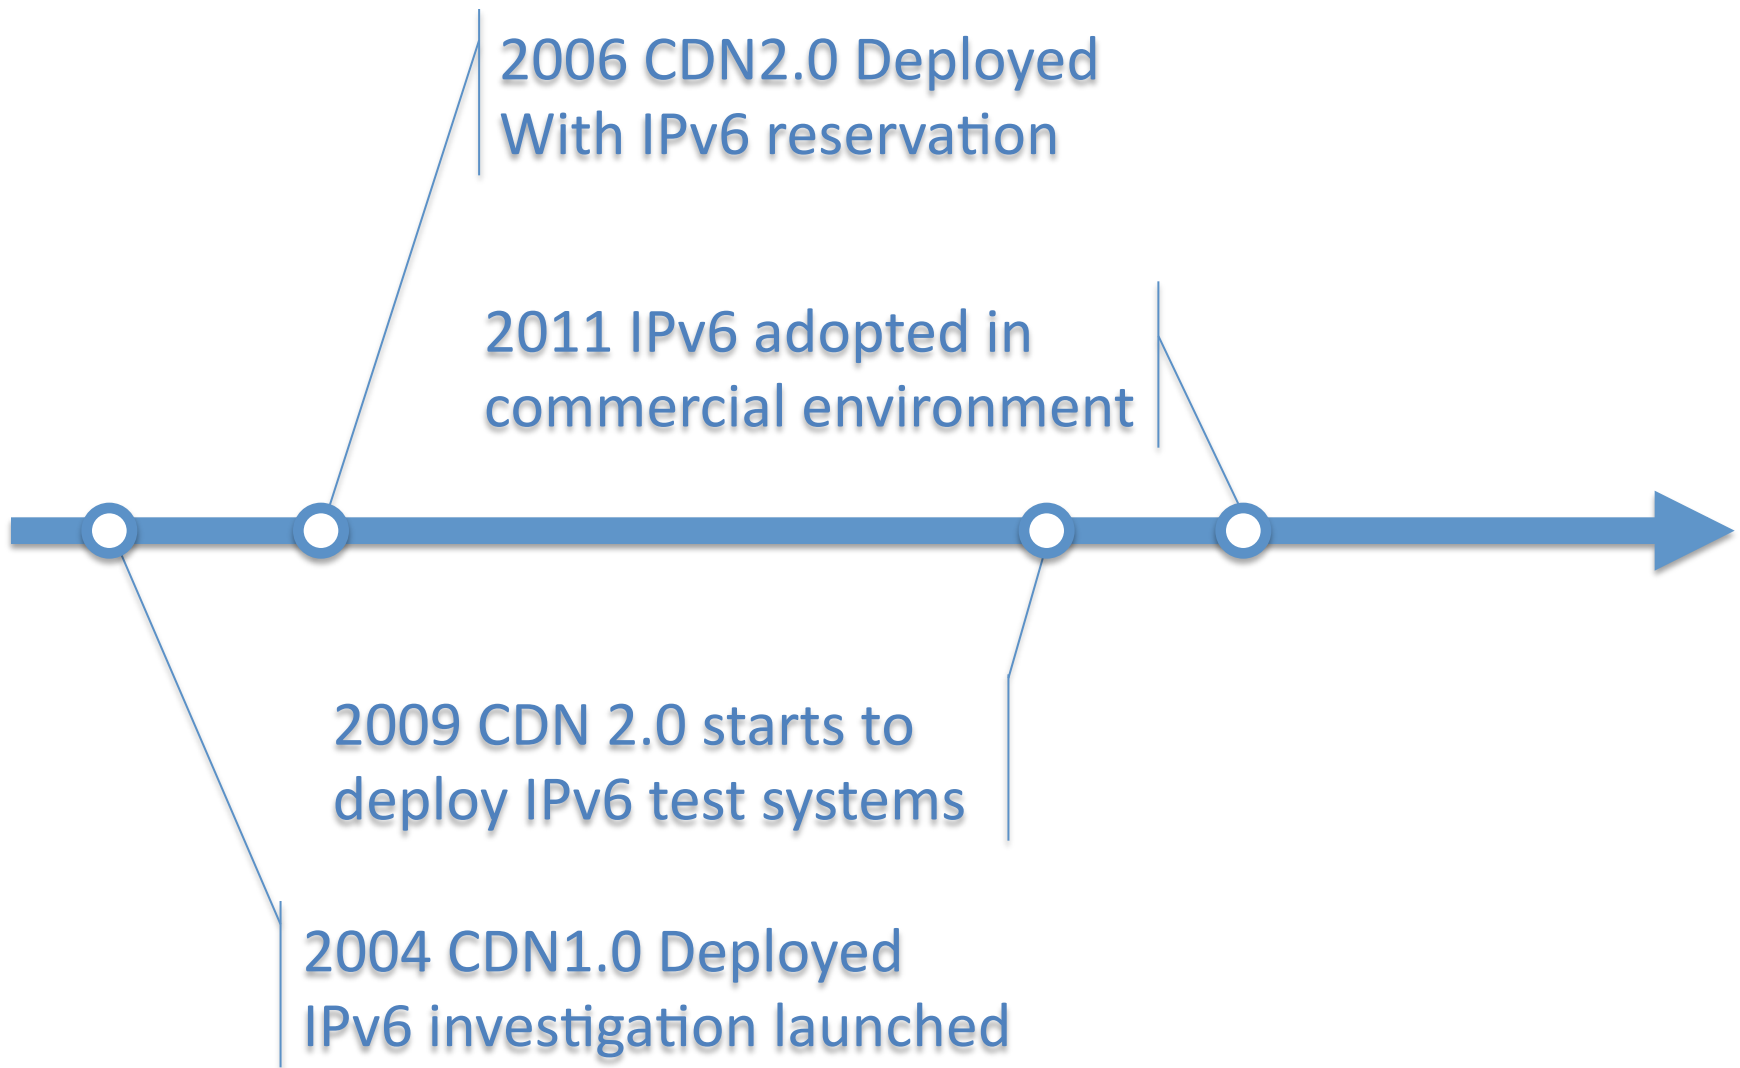

Dispatching by ChinaNetCenter

Features of CDN solutions

- Regardless of CP origin & end user access, either IPv4 or IPv6;
- Services covers IPv4-IPv4, IPv6-IPv6, IPv4-IPv6 and IPv6-IPv4;
- Solve the user IP addr. Lost problems brought by Carrier level transaction slutions

ChinaNetCenter IPv6 Transaction Process
