XI'AN, CHINA  
20 - 30 August 2013

# Action Items

**APNIC**

# Action Items

- **pol-35-01**

- prop-105: **Distribution of returned IPv4 address blocks**, did not reach consensus at APNIC 35 and was returned to the mailing list for further discussion.
- **Status**: Returned to the mailing list.

- **pol-31-05**

- Pending approval at each remaining stage of the policy proposal process, APNIC Secretariat to implement proposal prop-097: **Global policy for post exhaustion IPv4 allocation mechanisms by the IANA**.
- **Status**: Implemented at APNIC. Pending implementation by IANA.

XI'AN, CHINA  
20 - 30 August 2013

# Policy Development Process

**APNIC**

# Policy SIG Charter

- Develop policies and procedures which relate to the management and use of Internet address resources by APNIC, NIRs and ISPs within the Asia Pacific region
- Mailing lists
  - [sig-policy@apnic.net](mailto:sig-policy@apnic.net)
  - [sig-policy-chair@apnic.net](mailto:sig-policy-chair@apnic.net)

# Steps to Implementation

- Proposal submission
- Mailing list discussion before meeting
- Consensus at Policy SIG Meeting
- Consensus at the AMM
- Comment Period to confirm consensus
- EC endorsement
- Editorial Comment period
- Implementation

# Consensus Decision Making

- Consensus = “general agreement” taking into consideration comments on the mailing list and at the meeting.
- Show of hands is a way of “broadly gauging opinion”
- Comments via Remote Participation are welcome
- Example definitions from Tao of IETF:
  - a very large majority of those who care must agree
  - strongly held objections must be debated until most people are satisfied that these objections are wrong

# Remember

- Minor Objections
  - some problems may occur for some members of the group
- Major Objections
  - major problems will occur for parts of the community
- Participants should “work together” to resolve
