Statistics

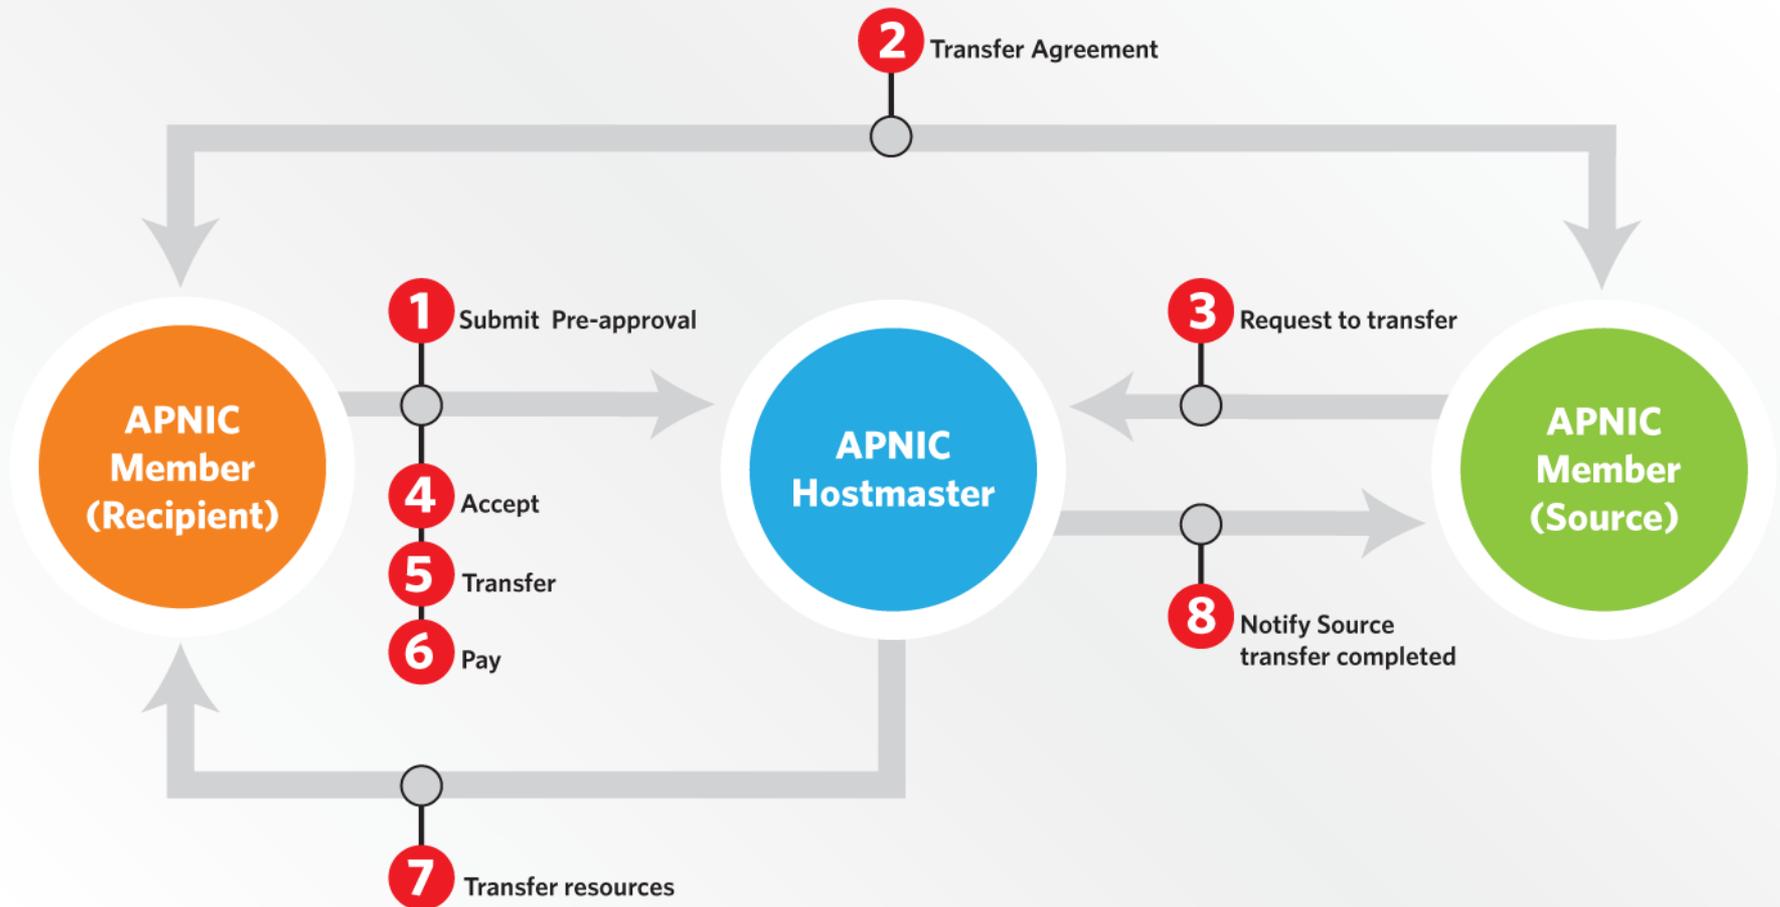

What's New?

- IPv4 transfer fee has been applied since 31 Aug 2012
 - The Fee is set at 20% of the membership fee for the transferred block
 - For a transfer between APNIC members the receiver will be charged this transfer fee
 - For a transfer from a member of another RIR to an APNIC member, the APNIC member will be charged the transfer fee
 - For a transfer from an APNIC member to a member of another RIR, the APNIC member will be charged the transfer fee
- Policy proposal prop-104 was implemented on 18 February 2013
 - Demonstrated need changed from 12 month to 24 month requirement

Procedure of IPv4 market transfer between APNIC account holders

1. The Recipient submits a pre-approval request via MyAPNIC and gets APNIC approval
2. The Source and the Recipient reach transfer agreement
3. The Source initiates IPv4 transfer via MyAPNIC and indicates the recipient account
4. The Recipient accepts the transfer in MyAPNIC
5. APNIC Hostmasters approve the transfer and invoice Recipient for a transfer fee
6. The Recipient pays the transfer fee
7. APNIC Hostmasters transfer the resource from the source account to the recipient account and update APNIC whois records
8. APNIC Hostmasters notify both Source and Recipient the transfer has been completed

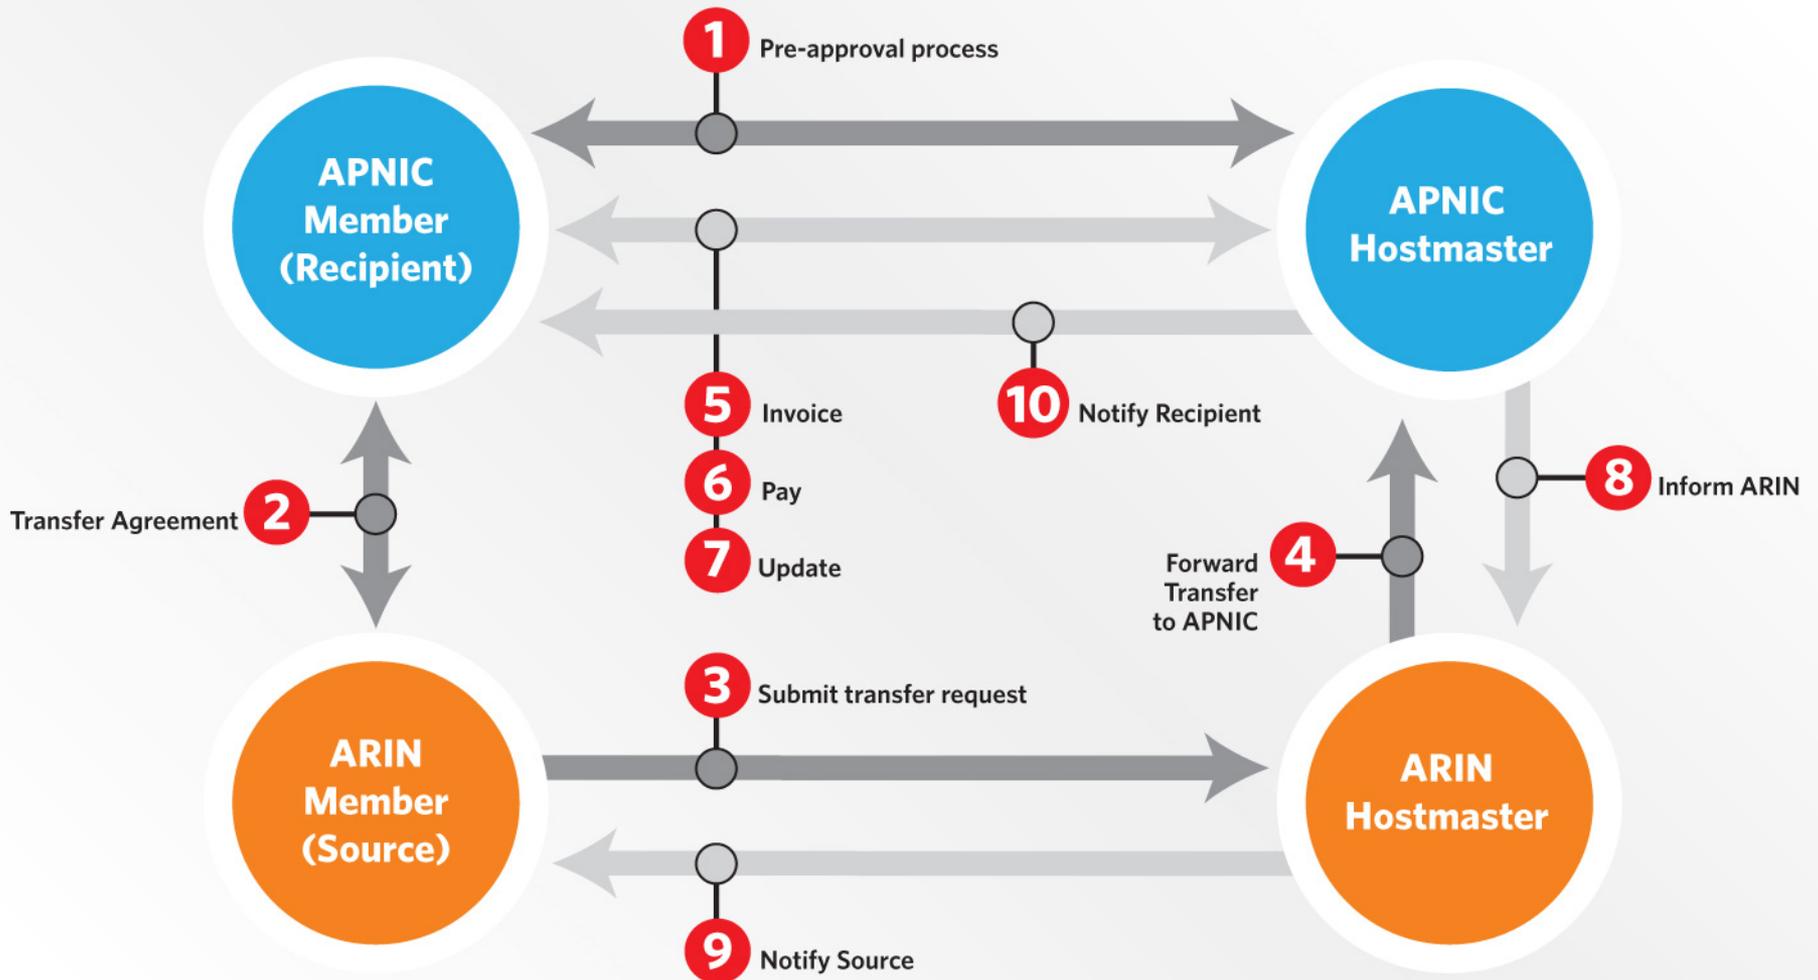

Procedure Flowchart (within APNIC)

Procedure of IPv4 market transfer from ARIN to APNIC account holders

1. The Recipient submits a pre-approval request via MyAPNIC and gets APNIC approval
2. The Source and the Recipient reach transfer agreement
3. The Source contact ARIN to initiate IPv4 transfer and indicates the recipient's APNIC member account
4. ARIN evaluates the transfer request based on ARIN policy and forwards the transfer request to APNIC after ARIN approval
5. APNIC confirms with the Recipient and invoice Recipient for a transfer fee
6. The Recipient pays the transfer fee to APNIC
7. APNIC delegates the resource to the recipient account and update APNIC whois records
8. APNIC inform ARIN to update ARIN whois records
9. ARIN notify the Source the transfer has been completed
10. APNIC notify the Recipient the transfer has been completed

Procedure Flowchart (ARIN to APNIC)
