

Title: Women in ICT in China
Presenter: Dr Xiaohong Huang, BUPT
When/Where: Women in ICT at APNIC 36

Abstract:

In China, women become more and more important in ICT field and women in ICT groups are becoming increasingly common. Women are not only the consumer of the new ICT technologies, but they create new ICT technologies. This talk aims to address the current status of women working in ICT field in China, and share experiences as being a female researcher and a professor in ICT field.
