

IPv6 ShowCase, N+I 2003 Tokyo

Kazu Yamamoto
Internet Initiative Japan Inc.
kazu@iijlab.net

N+I 2003 Tokyo

- **The largest network show in Japan**
 - Makuhari, Tokyo
 - 2nd July - 4th July, 2003
 - <http://www.interop.jp/>
- **154,389 people visited this year**
- **Top 5 keywords of search on the web**
 - 1. IPv6 (21103)
 - 2. VoIP (19554)
 - 3. Security (18229)
 - 4. ShowNet (16806)
 - 5. SSL-VPN (16208)

(4th) IPv6 Showcase

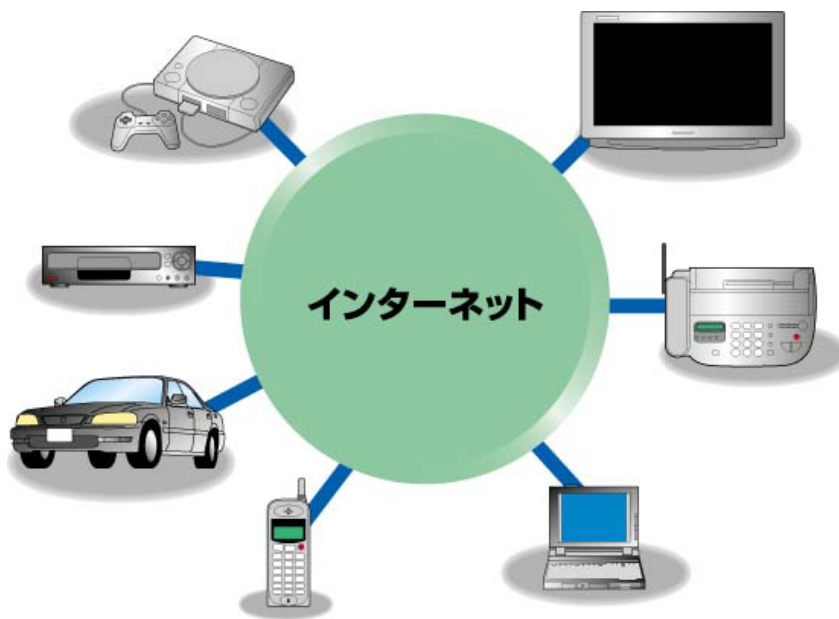

- Sponsors - 10**
 - Platinum - 2, Gold - 2, Silver - 6
- Participants - 22**
- Theme**
 - Beyond the net

Zones

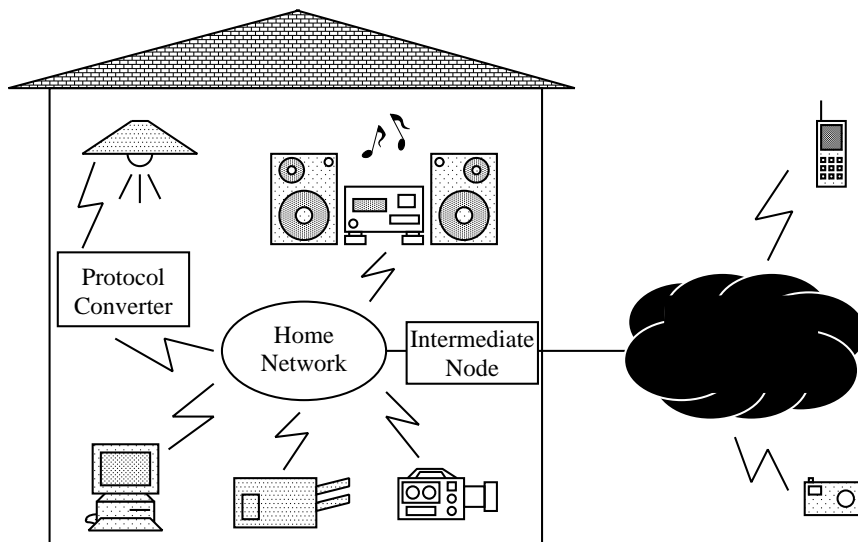

- Home network zone**
 - Home appliances
- Ubiquitous zone**
 - Mobile IPv6
- Access network zone**
- Network management zone**
- Office network zone**
- ISP/Data Center zone**
- Lab Zone**
- Web camera zone**

The IPv6 Internet

- A digital device network**
 - Not limited to computers
- A flat space**

A model of home networks

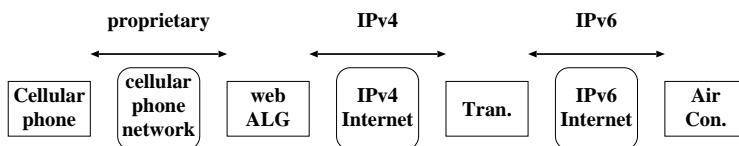

- Information providing from the home network
- Access to the home network from the Internet

WLAN digital camera (SANYO)

- **A digital camera with a wireless LAN card**
 - instead of CF
- **Usage**
 - **Storing pictures to an image server**
 - **Sending an picture directly to a printer**
 - **Video chat**
 - ▷ with a microphone and a speaker

Controlling an air conditioner

- **Cellular phone - AU**
- **Translator operation - KDDI**
- **Air conditioner - National**

Controlling a HDD recorder

Feel6 (Freebit)

- **IPv6 over IPv4 tunnel broker**
- **A temporary solution against the weakest link**

- **Cellular phone - NTT DoCoMo**
- **Translator operation - Freebit**
- **HDD recorder - SONY**

Web camera

CEC/Panasonic/NEC

- **Controlling the cameras**
- **Receiving video streaming**

Cellular Phone and Mobile IPv6

- **Cellular phones at present**
 - The frequency range is limited
 - The number of users is increasing
- **PHS and WLAN have been widely deployed**
 - High-speed and broad bandwidth
- **Cellular phones in the future**
 - **Choosing best communication media => IP**
 - ▷ e.g. WLAN in a city
 - ▷ e.g. Cellular channel in mountain
 - **Many users => IPv6**
 - **Mobility => Mobile IPv6**

KAME + USAGI

- **Advantages of Mobile IPv6**
 - **Media independency**
 - ▷ 100BaseTX
 - ▷ WLAN
 - **A long session**
 - **Accepting a session**
 - ▷ Without dynamic DNS

Summary

- **Many people now believe in the concept of IPv6**
 - **The network for digital devices**
 - **New applications/services**

- **Home networks are coming**
 - **The weakest link is home routers and ADSL carriers**
