

Routing SIG

Report for APNIC Member Meeting
Friday 3rd September
Nadi, Fiji

Routing SIG Charter

- The Routing SIG examines important issues of Internet routing and policy in the AsiaPacific region and globally. These issues would include Internet routing table growth, de-aggregation of provider blocks, routing stability and flap damping, routing security, and the Internet Routing Registry

Routing SIG

Thursday 2nd September 16:00-17:30

SIG Chairs: Philip Smith & Randy Bush
Mailing List

sig-routing-chair@apnic.net
sig-routing@lists.apnic.net

- Tim Griffin BGP Wedgies: bad routing policy interactions which cannot be debugged
- Randy Bush Happy Packets: some initial results & BGP is chattier than you think
- Gert Döring IPv6 Routing Status Report
- Geoff Huston BGP: The Movie
- ~50 attendees including the stenographers
- Thanks to Chris Buckridge for minuting the meeting
