Brief report of NIR System BoF

Date & Time: 2004/8/31 4:30 - 5:30 pm

Attendees: 13 from APNIC, KRNIC,
JPNIC, TWNIC

Topic 1: NIR perspective of the new
DNS generation system

Topic 2: APNIC Registry System
Update

NIR perspective of the new DNS generation system

- Presenter: Terry Manderson from APNIC

Similar presentation as he presents at DNS Operations SIG, but focuses for NIRs. APNIC's new database-driven reverse zone file generation system.

No impact for NIRs from this.

APNIC Registry System Update

Presenter: Sanjaya from APNIC

- Overview and status of APNIC's new registry system as well as XML interface for NIRs.

Overall

Since the given time period (1 hour) was not enough for discussion, continuous discussion is expected on the mailing list.
