CNNIC Update

CNNIC
IP group of Technical dept.
23 Feb. 2005

Technical platform update

.Allocation manager system to store

 member information since 2004

.Use Request Trace System to assist
   IP request since 2004

.Whois service open now

.supporting platform for our members

To mirror APNIC Database is done

We hope supply better local service...

To build a member service platform

.member can query the fee,resource information...

.member can register customer's information if they would like to use Chinese language

.will be available before June 2005

Thank you
