

# AfriNIC Update

Hisham Rojoa  
Membership and Comms, AfriNIC

# Financial Health

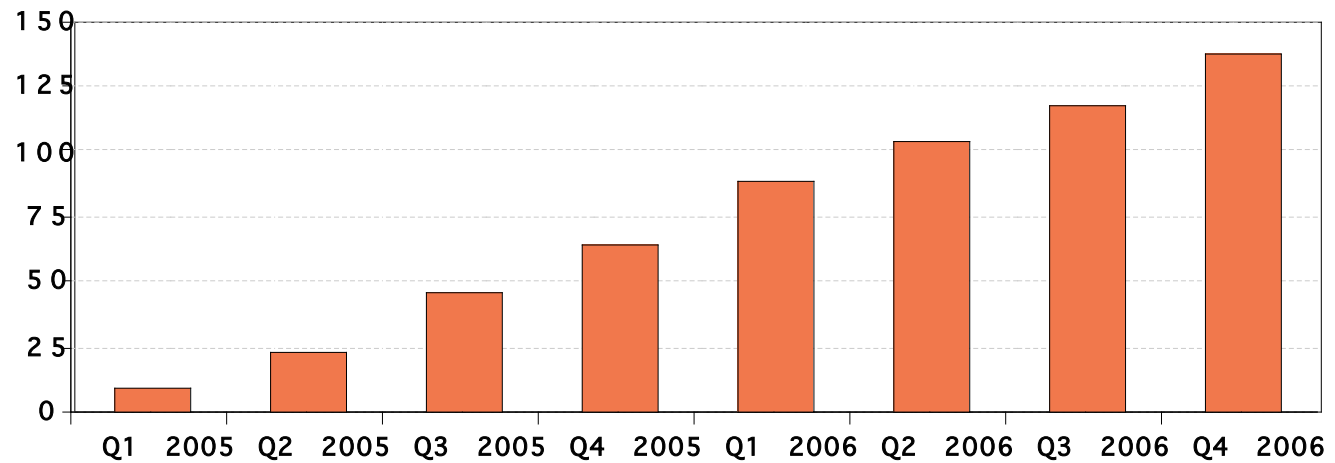

- We are working hard to achieve our full sustainability after the two year incubation period. The objectives are among others:
  - To have one full year operation budget reserve.
    - *we achieved about 75% by the end of 2006*
  - To put in place good management processes to ensure sustainable growth.
    - *Organisational and control processes in place (and accounts regularly audited)*
  - Minimise taxes:
    - *Got Tax exemption from Mauritius Government*
- 2007 is the first year that AfriNIC will operate as a fully sustainable organisation

# Membership Growth

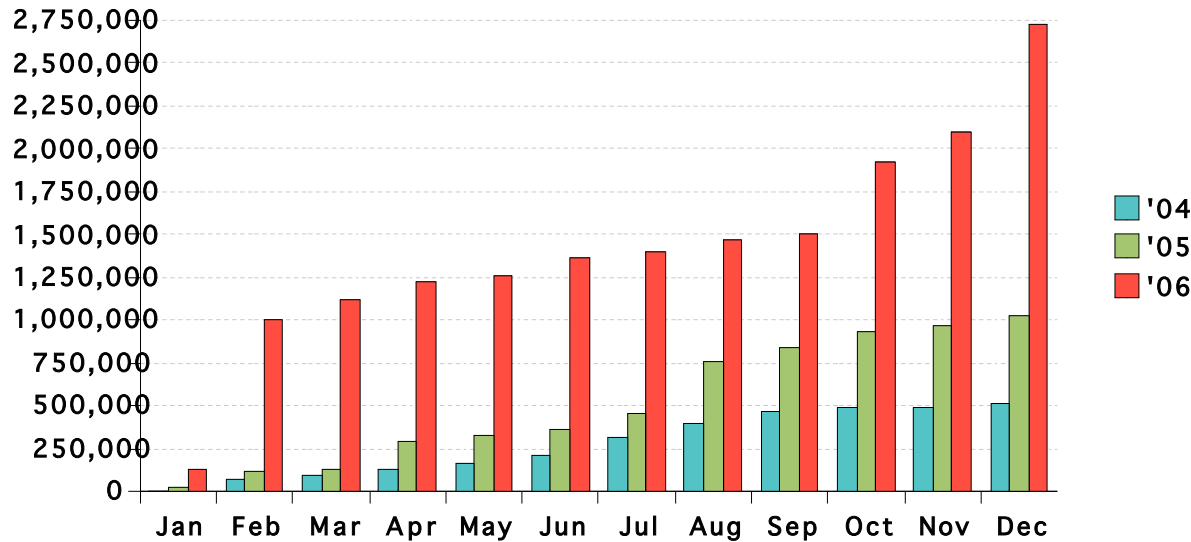

**More new-members in 2006: about 140% growth in 2005 & 2006 vs. 2004**

New Member Growth (Cumulative)

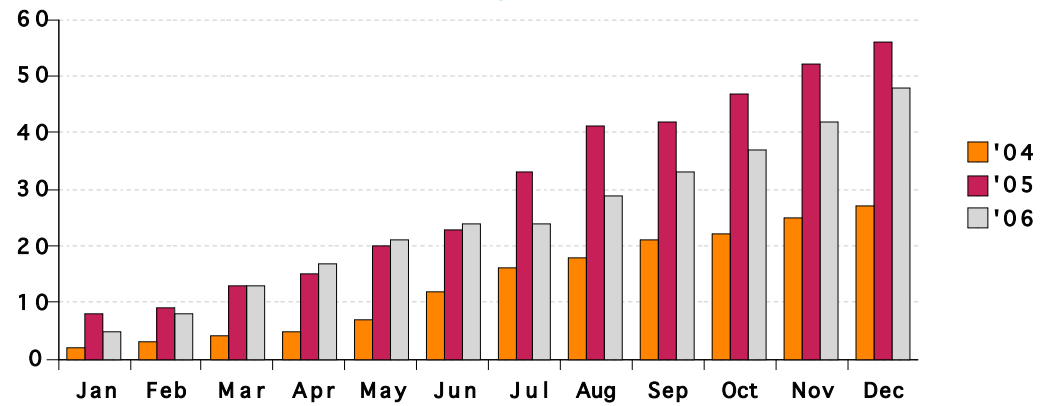

# Impact on Resource Allocation

Comparison of Total v4 addresses issued in the last 3 years

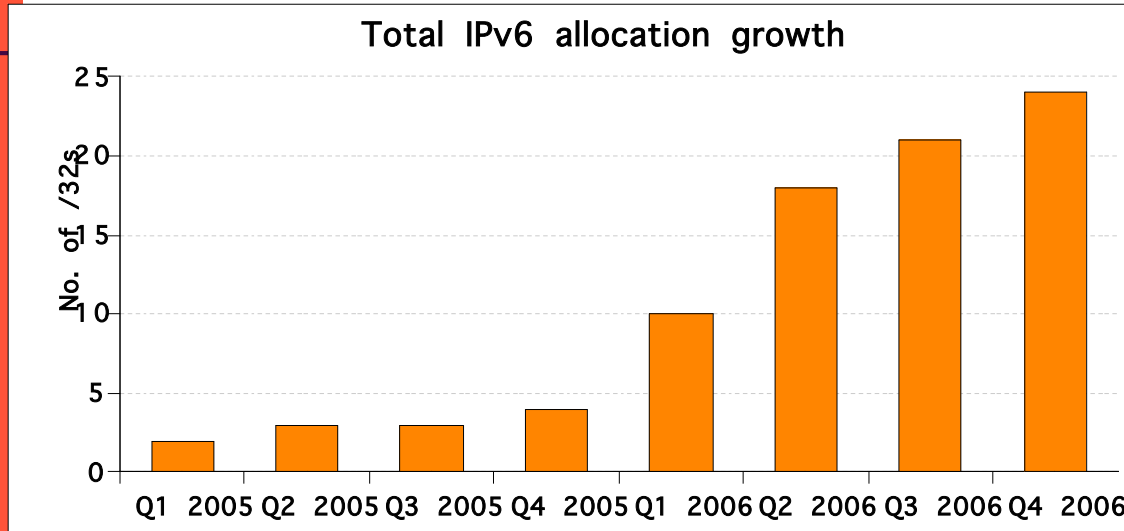

A steady growth in resources allocated has resulted.

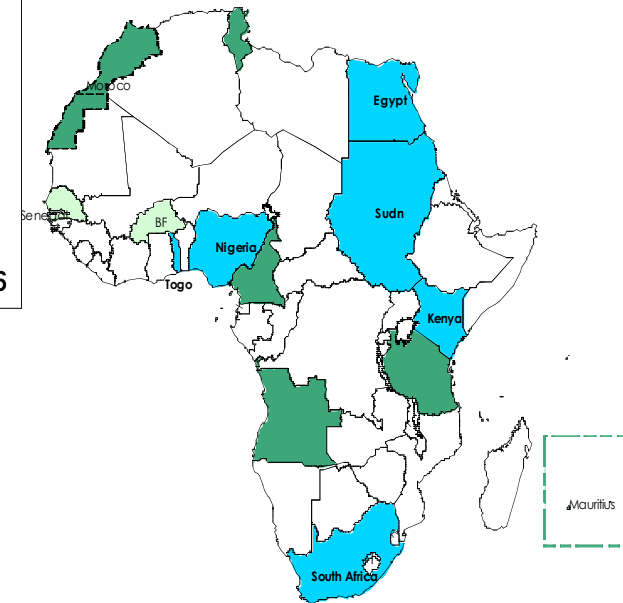

ASN Total Assignments in the last 3 years

# IPv6

- Last year, we have been focusing on IPv6 awareness among the community through training and conferences. This has led to more interest in IPv6

*Countries where IPv6 training are conducted who have an IPv6 prefix allocation.*

# Policy Development

Policy	Status
IPv6 PI Assignments for Critical Infrastructure	Discussion
IPv6 PI Policy Proposal	Discussion
Changes to IPv6 Address Allocation and Assignment Policy	Discussion
Proposal to change the allocation and assignment period to 12 months	Discussion
IPv6 Provider Independent Assignment for End-Sites	Discussion

## Cooperation with Other Organisations

- Building Partnership and collaboration with other organisations:
  - AfNOG (MoU signed during AfriNIC-3)
    - Participated to AfNOG funding for 2006 meeting
    - Fellowship to 5 people to attend Nairobi Meeting - with the support of ISOC
  - With Other organisations
    - AAU
    - AfTLD
    - AfrISPA
- Continue our active participation to the NRO activities through its EC, the ECG and CCG.

## Some Projects

- Beside our core activity which is Internet Resource management we are working on some other projects of interest for the community:
  - MyAfrinIC: a portal to allow LIRs to easily interact with AfrinIC and manage their resources. Beta testing starting soon
  - Service Fee Analysis
  - Routing Information and statistics: A tool to evaluate the routing status of resources allocated by AfrinIC and overall statistics on Internet resources in our region
  - Activation of IRR for AfrinIC region - **before end of 2007**
  - Internet Resource Certification (RFC 3779):
    - Workshop organised with Stephen Kent at AfrinIC office in Pretoria in August 2006.

# Last Public Policy Meeting

- IPv6 Training and Conference
- Policy Discussions
- Anti-Spam Working Group
- 6Mandela Project Presentation

**Balacava, Mauritius**

**27 Nov – 1Dec 2006**

**- Back to back with IPv6 conference,  
IPv6 hands on training, AfTLD and  
INET Africa meeting**

*Real picture from the hotel where the meeting took place.*

# Next Public Policy Meeting

**Abuja, Nigeria**

***23 April – 4 May 2007***

**- Back to back with IPv6 conference,  
IPv6 hands on training, AfTLD AfREN,  
AfNOG and INET Africa meeting**

**Thank You**
