

APNIC DNS SIG

APNIC 25

February 28, 2008

APNIC25 DNS SIG Agenda

- Charter Discussion (this)
- IPv6 DNS Operation In SOI-Asia
 - Mohamad Dikshie Fauzie
- .CN DNS Operation Status
 - 张翠玲 - Cathy Zhang
- DNS - Continuity of Operations
 - Bill Manning
- BIND 10
 - João Damas
- Co-chair election

APNIC DNS SIG Charter

- <http://www.apnic.net/sigs/dns/index.html>
- The charter of the DNS operations SIG is to examine developments in policies and procedures for reverse DNS operations in the Asia Pacific region. It will include topics such as reverse delegations for IPv6 networks, dynamic updates, secure DNS, current DNS software versions, and legacy transfers from other databases.

DNS SIG Mailing List

- Archive & List Info
 - <http://mailman.apnic.net/mailling-lists/sig-dns/index.shtml>
 - <http://mailman.apnic.net/mailman/listinfo/sig-dns>
- How many here are subscribed?
- How many here actively read the list?

Co-chair?

- There has been a volunteer for a co-chair
- Would be good to have a co-chair but recent process wanted nominations before a deadline
- With not much activity, should we stick to formality?

Would-be co-chair candidate

- Sam Sargeant
- Based in Wellington, NZ
- DNS operator extraordinaire
- Objections, commentary (on process)?

Past Year Activity

- About 20 messages reporting on events the chair has attended
- About 5 replies/supplements to that
- A handful of announcements
- No other discussion

Is the SIG beneficial?

- Periodically need to review whether the SIG is managed correctly
 - Mail traffic indicates something isn't happening just right
 - What should be on the list?
