

# *NIR SIG Update@APNIC30*

Izumi Okutani

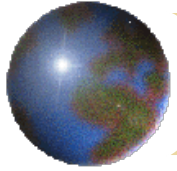

Wendy Zhao

Ji-Young Lee

## *Overview*

- ⊕ 14:00-15:30 24<sup>th</sup> Aug 2010
- ⊕ Roughly about 25 attendees
- ⊕ Co-Chair Election and 3 presentations

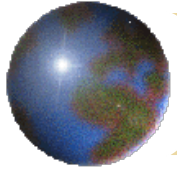

## *Chair and Co-Chair Election*

- ✦ New Co-Chair
  - ▣ Ji-Young Lee (KRNIC)

Thanks to Ching-Heng Ku from TWNIC

## *Presentations*

### ✦ **TWNIC Update**

▣ Sheng-Wei Kuo, TWNIC

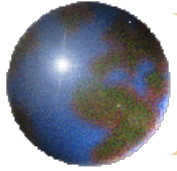

### ✦ **IPv6 connection service by KISA**

▣ Ji-Young Lee, KRNIC of KISA

### ✦ **CNNIC Update**

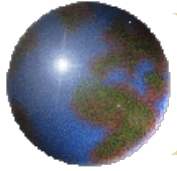

▣ Wei Zhao, CNNIC

Each NIRs shared the measures they are taking for IPv6 deployment

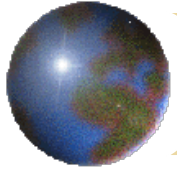

## *Some Interesting Information*

- ⊕ About 1/3 of CNNIC members receive IPv6 allocations - + 73 allocations as a result of prop-073
  
- ⊕ 6NGIX run by KRNIC of KISA( <http://vsix.kr>)
  - ⊕ 37 networks connected, 5 are ISPs outside Korea
  - ⊕ KRNIC recommends peering to 6NGIX after IPv6 allocation
  - ⊕ Non-Korean ISPs welcome for peering – free peering
  
- ⊕ Measurement of IPv6 readiness in Taiwan: Core network, access line, applications, Users
  - ⊕ About 65% of LIRs advertise IPv6 allocation they received

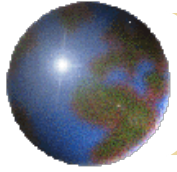

## *Some Interesting Information*

- ❖ Web contents in IPv6
  - ❑ Directory of IPv6 enable websites in Taiwan – over 750 websites registered
    - <http://v6directory.twnic.net.tw/directory.php>
  - ❑ KRNIC conducts a project to build infrastructure and contents for IPv6-based Commercial Web Service
  
- ❖ Use of IPv6 in mobile phone networks
  - ❑ IPv6 over WCDMA project by KRNIC, China Mobile conducting tests for scaling and IPv6 mobility, etc
  
- ❖ Internet of things in China

## *Regular Information Sharing*

- ✦ Gather all information in ICON wiki to exchange information about IPv6 deployment measures
- ✦ Sort them out by categories and share information among NIRs

*Questions?*
