# Getting around

## How to use this book

This book will help you get around the Gold Coast and all its attractions by bus.

The Gold Coast Highway is the starting point for most of the bus routes featured in this guide and destinations are categorised by subject alphabetically.

Each attraction is listed at the top of the page, along with its map reference. Descriptions are included as well as attraction operation times and other handy hints such as how to time your arrival.

## Terminology

The following terms are often referred to throughout this guide. Here's what they mean:

**HIGHWAY** - Most hotels are located near the Gold Coast Highway, which is where most of the buses run. The Gold Coast Highway is often where you will catch your bus.

**BEACH SIDE** - To travel south, wait at a bus stop on the side of the Highway closest to the beach.

**DRY SIDE** - To travel north, wait at a bus stop on the side of the Highway furthest away from the beach.

## Catching the bus

Catching the bus is easy, just follow these steps:

1. **DESTINATION** - choose your destination from the pages of this book;
2. **WHERE TO WAIT FOR THE BUS** - check the map on page 10 to see where your destination is located. For most destinations, you can wait at any bus stop on the Gold Coast Highway, located approximately 400 metres apart. For southern destinations, wait on the beach side of the Highway. For northern destinations, wait on the dry side (refer terminology page 5).
3. **WHAT BUS TO CATCH** - look for the bus number displayed above the front window of the bus.
4. **HAIL AND RIDE** - many parts of the Gold Coast operate on a hail and ride basis, so when you see the bus coming, you need to lift your arm to signal the driver to stop the bus.
5. **FARES** - fares vary, depending on where you want to go. The best option is to buy either an Ezy Pass for unlimited travel, or to have loose change ready to pay your fare. Please tender the correct fare where possible. For information on fares contact TransLink on 13 12 30 or visit [translink.com.au](http://translink.com.au).
