24 – 27 August 2010, Gold Coast, Australia

APNIC

Join us for APNIC 30 at the Gold Coast, Australia –
the ultimate investment for the future of your business

Learn directly from key Internet professionals in the Asia Pacific region and beyond.
The knowledge gained during this event will be immediately actionable to improve profitability.

APNIC 30 will run from 24-27 August at the Marriott Surfers Paradise Resort at the Gold Coast, Australia.

Why attend an APNIC conference?

- Hear world-class speakers discuss cutting-edge Internet management techniques
- Learn about best practice in Internet resource management to make your business more efficient and profitable
- Make valuable contacts for building business relationships
- Informative seminars, tutorials, conference sessions, networking events, and other forums.

What will you get from APNIC 30?

High Return on Your Investment. The knowledge, live discussions, and skill-building opportunities presented at APNIC 30 will serve an immediate benefit to your organization.

Hands-On Training from industry leaders. Participate in practical and theoretical workshops, led by high-level Internet operators from around the world.

Excellent Value for Level of Intensive Education. 20+ hours of tutorials

Small Class Sizes. As a specialist event, work with and learn from Internet industry leaders from the Asia Pacific and beyond.

Attend the premier networking, training, and conference event for the Asia Pacific region

APNIC recognizes the challenges of international travel for many organizations in developing countries, especially in the current economic climate.

Training

Topics featuring advanced technical content include:

- DNS Security (DNSSEC)
- IPv6 Deployment
- Resource Certification/RPKI
- Internet Resource Management
- Internet Routing Registry
- Training sessions are delivered by guest experts from across the region

APOPS (Asia Pacific Operators Forum)

Listen and learn with operators from across the region and share experiences on the latest issues affecting your business. This forum takes place over a full day during the event.

Be Ahead of the Game. Learn about the latest cutting-edge developments in networking and resource management to maximize the effectiveness of your current systems.

Take it Home. Bring your knowledge, insights and training back to your organization and pass what you have learned on to your colleagues and management team.

Social Events/ Networking

APNIC Social Events are a fantastic opportunity for peering, meeting new clients and suppliers, and attracting new talent. Our social events are memorable because they feature great food, entertainment, and local culture.

- Expand your professional contact database
- Establish opportunities for yourself and your organization

Event Highlights

*Make Connections Between Business Needs and IT Objectives.* To be successful in today's rapidly growing market, a strong understanding of the latest Internet developments is essential for business growth.

Fellowships are Available. APNIC offers a number of grants to key personnel from organizations building or providing Internet services in developing countries.

Sponsor an APNIC Event

Sponsoring an APNIC meeting is the best way to exclusively target the region's key decision makers. APNIC attendees are typically executives who run ISPs; are responsible for technology purchases at large corporations; or are influential people within the global Internet community.

APNIC 30 sponsorship packages allow you to maximize your visibility with this big-budget target audience.
