NIR SIG Report@ APNIC31

Wendy Zhao

Ji-Young Lee

Izumi Okutani

Overview

- ## Date
  - 11:00-12:30 Tue 22nd Feb

- ## Attendees
  - Roughly 30 + 15 remote

- ## Agenda
  - IP addressing research
  - The IPv6 Taiwan Directory
 - Next Generation Internet Address (IPv6) Transition Plan in Korea

Ji-Young Lee (KRNIC)

Chairs/Co-Chairs

Wendy Zhao (CNNIC)

Izumi Okutani (JPNIC)

http://meetings.apnic.net/31/program/nir

Major Activities

- CNNIC
  - Conducting research on IP address
    - allocations within a network, security considerations in protocol and revision of IPv6 format

- TWNIC
  - Sharing information to its community to help prepare for IPv6
    - e.g.,a list of IPv6 ready products, IPv6 website directory, dedicated website on IPv4 exhaustion

- KRNIC
  - preparing for IPv6 transition as a national plan and has set a flag date as June 2011

Discussions

- It was suggested that changes in IPv6 format in CNNIC's research should be discussed in the IETF

- KRNIC has set a flag date as a milestone to prepare for IPv6 but it is not a registry's role to speculate the date of APNIC's IPv4 pool exhaustion

- Outreach activities on IANA's IPv4 pool exhaustion was shared and will improve collaboration for the exhaustion of APNIC pool
