

# DG Report

Paul Wilson  
Director General

# Operational Planning

- 2012 plan commencing shortly

# Four Key Outcomes

- Delivering Value
  - APNIC is a service oriented organization
  - APNIC provides value to all stakeholders according to their specific needs.
  - APNIC Secretariat is funded by the membership, and applies those funds in the mutual interest of all Members
- Supporting Internet Development
  - APNIC supports the maintenance of an open and neutral Internet, based on global addressability of all network components, and minimal barriers to global end-end reachability.

# Four Key Outcomes

- Collaborating and Communicating
  - APNIC exists within a global community of Internet stakeholders, whose openness and cooperation is critical to the success of the organization and of the Internet itself.
- Core Support
  - The APNIC Secretariat exists to provide services, and support the activities of APNIC. It operates as a professional team with full accountability to the Members and stakeholders of APNIC
