

# APIPv6TF Meeting

27/02/2013 in conjunction with  
APRICOT2013 in Singapore

# Agenda

- Greetings from the Chair (5 min)
- Secretariat update (1 min)
- Presentations from the forum (82 min)
  - Supporting IPv6 Transition: Update from economies and the industry
- Closing (2min)

# Greetings from the Chair

- Welcome to those physically present and those joining us virtually!
- Challenges for IPv6
  - Growth momentum increased significantly in the last 18 months but still big space to grow
  - Cost of maintaining multiple protocols...when will this pain become unbearable?
  - NAT444 – need to articulate the ache of short term solutions
  - Which IPv6 transition to choose?

# No end of challenges...

- **OUR CHALLENGE:**  
**What can our community do to actively address these issues?**
- APIIPv6TF will keep providing a forum to Inform the community of IPv6 successes
  - There are great things happening!
- Thanks for all speakers for sharing their IPv6 stories

# Secretariat Update
