

The APNIC 36 Conference is a two-week program, which consists of a workshop week and conference week. It will be held from 20-30 August 2013 at the Westin Xi'an Hotel.

## Why attend the APNIC 36 Conference?

- Learn first-hand about the latest developments in Internet networking trends from the shared insights and practical experiences of regional and international experts
- Directly contribute to discussions on Internet resource distribution and management policies
- Participate in hands-on training sessions and intensive workshops to expand your knowledge and skills for key deployments such as IPv6
- Attend networking events to exchange ideas and expand your contact base

### Register now!

Registration is free for the Conference week for up to four attendees of both an APNIC and NIR Member. The Workshop week and closing dinner will still be charged as normal.

## Training

APNIC Conferences feature a workshop week from 20-24 August and provide the region's operators with the fundamental knowledge required to build and manage their networks.

The APNIC 36 Workshop week will include:

- BGP (Border Gateway Protocol)
- Network Security and DNSSEC
- IPv6

The APNIC Training team will also deliver tutorial sessions catering to all levels of experience during the conference week. For example:

- Internet Routing Registry (IRR)
- Network Management
- ISP/IXP Network Design

## Program Highlights

Get real-world and best-practice information on current networking and deployment issues.

- Hear Internet experts address key deployment issues such as cellular mobile growth which is currently affecting the industry. Attend the IPv6 for Decision makers session, the IPv6 plenary, and the APIv6 Task Force
- Have your say in how Internet resources are managed at the Policy Special Interest Group (SIG). Anyone can submit a proposal and join the discussion - [conference.apnic.net/36/policy](http://conference.apnic.net/36/policy)
- Share your experiences with other network operators in the Asia Pacific Operators (APOPS) forum. This forum showcases a wide range of specialized technical content and case studies

## Sponsor an APNIC Conference

Be part of a highly specialized forum in the global technical community.

As an APNIC Conference sponsor, your organization is linked to a respected organization within the Internet technology industry.

Sponsoring an APNIC Conference provides you with an opportunity to directly support the growth of the Internet.
