

APNIC **44**

ASO Review Consultation

#apnic44

TAICHUNG, TAIWAN

7-14 September 2017

Address Supporting Organization Review Report

- Periodic reviews of the ASO
 - First independent review in 2011
 - Second independent review in 2017
 - Conducted by ITEMS International
- Review report included 18 Recommendations
 - <https://www.nro.net/independent-review-of-the-icann-address-supporting-organization-aso-published/>

Recommendation # 18

- The NRO should initiate a public consultation, involving the five RIR communities, to determine the future structure of the ASO

Input to consultation

- The presence of the numbering community at ICANN is important but currently divided between ASO AC and NRO EC.
- Current arrangements are ambiguous and a source of confusion and misunderstandings.
- In response to the second independent ASO Review, the APNIC-EC proposes to consider **non status-quo** options taking into account all current aspects of the relationship of RIRs and ICANN.
 - E.g. empowered community, PTI Review Committee, etc.

ASO Review – WG Charter (Draft)

- Discuss the recommendations put forward in the 2nd ASO Review and consider the future structure of the ASO/NRO with reference to the APNIC EC's recommendation for a “non status-quo” solution. The WG will start the community consultation process and report back to the community.
- Co-Chairs
 - Aftab Siddiqui
 - Izumi Okutani
