IXPs

"As new attendee in this conference, I found that I get a lot of useful information which I would share to my community for the benefit of Internet governance, resource management and the trend of future Internet".

Kong Diep, S I Group, Cambodia

DEVELOP

226

Fellowships offered to participants in developing economies to build capacity. Emphasis on diversity.

"The fellowship program provides organizations with limited budgets the opportunity to learn and exchange information with people from around the world. Through this program I have built a network, gained a lot of new knowledge, and learned more about APNIC."

Phommathat Phoumanivong,
LANIC, Lao PDR
