

Policy Proposal Translation

Outcome of Policy Proposals discussed at APNIC 45

An Open Policy Meeting at APNIC 45 in Kathmandu, Nepal considered the following proposals.

prop-118: No need policy in APNIC region

This proposal author was uncontactable and did not submit a revised proposal. Consensus was reached to change the author to allow for a revised proposal to be submitted.

prop-119: Temporary transfers

This proposal author was uncontactable and did not submit a revised proposal. Consensus was reached to change the author to allow for a revised proposal to be submitted.

prop-120: Final /8 pool exhaustion plan

Version 2 of this proposal to agree on post-exhaustion policy and pool management for the Final /8 (103/8) did not reach consensus. Discussions on whether or not to have waiting list management raised many questions and was a priority for new Members. There was some support to have a single list for all recovered space with access for new Members only. The Chair returned it to the mailing list for further discussion.

prop-123: Modify 103/8 IPv4 transfer policy

This proposal to allow the transfer of 103/8 addresses without the five-year restriction for delegations made before 14 September 2017 did not reach consensus. It was returned to the author for further consideration and for a revised proposal to be submitted. There was some support to make M&A transfers exempt from the five-year transfer restriction.
