

APNIC 46

#apnic46

NOUMEA, NEW CALEDONIA

6 - 13 September 2018

Conference
SPONSORSHIP PROPOSAL

Why sponsor the APNIC 46 conference?

Engage with the Internet community

APNIC conference sponsors are exposed to a highly engaged international audience of technical, operational, and policy-making Internet communities.

What's in it for me?

Sponsoring an APNIC conference gives you:

- Access to influential Internet professionals
- Internal and external networking opportunities
- Unique marketing and brand exposure
- Opportunity to make valuable contacts and increase sales

Help encourage Asia Pacific Internet growth

Sponsorship revenue significantly reduces the overall cost of participation, enabling more attendees to participate at the conference. Your sponsorship support helps to bring the widest possible range of regional participants to the APNIC conference, especially those from developing economies.

Audience

The conference attracts delegates from across the Asia Pacific region and beyond, and is typically attended by more than 350 participants from the IP networking, ISP, policy-making and Internet-related organisations.

The APNIC 46 Conference is supported by APNIC Members and the Asia Pacific Internet community, which consists of more than 1,000 major ISPs, the broader technical community, Network Operator Groups and government agencies. APNIC members can be found [here](#).

The majority of attendees are key technical personnel from ISPs who are responsible for purchasing, building and maintaining network infrastructure. Attendees also include participants from:

- Data centres
- Internet Exchange Points
- Content providers
- Satellite communication providers
- Commercial Internet industry organizations
- Research and educational institutions
- Government departments
- National Internet Registries (NIRs)
- Domain Registrars and Registries

Most sessions at each conference are webcast and remote viewers can watch the conference, participate, and provide online feedback.

The Asia Pacific region has the highest rate of Internet growth in the world.

Be part of a highly specialized forum in the global technical community. As an APNIC conference sponsor, your organization is supporting a respected community within the Internet technology industry.

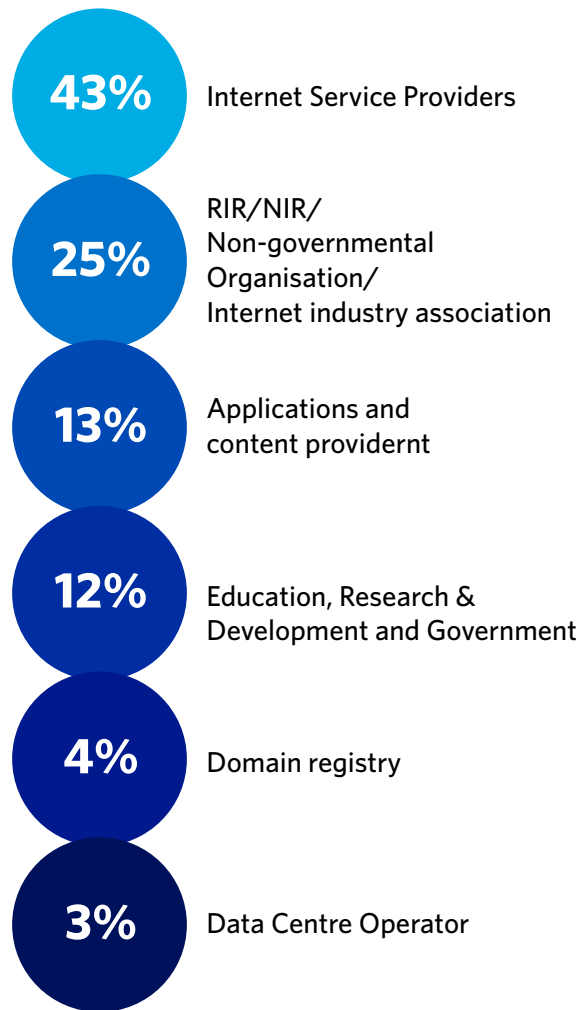

*APNIC 44 was held in Taichung, Taiwan
APNIC 42 was held in Colombo, Sri Lanka
APNIC 40 was held in Jakarta, Indonesia*

APNIC Conferences Attendees in 2015 - 2017

Who is attending?

Major industries represented

From where?

On average 39% of attendees come from the Host economy*

*Host economies for the past three APNIC conferences are:

APNIC 40 in Jakarta, Indonesia
APNIC 42 in Colombo, Sri Lanka
APNIC 44 in Taichung, Taiwan

Previous sponsors

APNIC values strong, ongoing relationships with each of our sponsors and works closely with them to ensure their individual needs are met to receive a good return on their investment.

Respected names in the Internet industry regularly support APNIC conferences and have gained valuable exposure.

Sponsorship opportunities

APNIC offers flexible sponsorship options to align with your objectives including day, session, and social event sponsorship packages.

If you can't find what you're looking for in the categories below, we can tailor a package according to your needs and budget.

Training & workshops - 6 - 10 September 2018

APNIC provides high quality, hands-on training during intensive five-day workshops that focus on developing practical skills that the attendees can apply immediately.

Conference - 11 - 13 September 2018

During the conference week, delegates:

- Engage with the world's leading Internet and ICT professionals
- Discuss real-world IPv6 deployment efforts and cybersecurity issues
- Network with their peers
- Have their say on how Internet resources are managed at the Policy SIG

Fellowships

The APNIC Fellowship Program enables network engineers from developing economies to attend APNIC conferences for valuable training, professional networking, and policy discussion opportunities. APNIC Fellows return to their organizations and share the information and knowledge gained from the APNIC conference.

Social events

Extremely popular and memorable, APNIC social events are an effective way for attendees to network with industry peers and share information. The theme of the APNIC 46 social events will highlight unique New Caledonian culture and include great entertainment.

Remote participation

Remote participation helps to widen involvement at APNIC conferences. It allows participants from across the region and beyond to access the conference content through live audio and video streaming, live transcripts, and chat.

In Kind [please specify] _____

SUBMIT DETAILS

APNIC will issue a tax invoice on receipt of your sponsorship acceptance form.
Once completed, please send the form back to Blandine Cousin by email to conference@apnic.net or Blandine@apnic.net

About APNIC

APNIC is an open, membership-based, not-for-profit organization that provides vital Internet number resource delegation and registration services to the Asia Pacific region. APNIC serves the region by supporting infrastructure development, capacity and skill building, and acting as an authoritative source of information about Internet number resource distribution and IPv6 deployment.

About the conference local host, OPT-NC

The Office des Postes and Telecommunications of New Caledonia (OPT-NC), main local operator, provides services in three areas of expertise all over the French territory: telecommunications (4G mobile, fiber to the home, international and domestic cables), postal and financial services for individual and business customers.

As a New Caledonia public institution, OPT-NC mobilizes sufficient economic and human resources to fulfill its town and country development, in order to address the needs of the people, communities and companies.

OPT-NC has three subsidiaries: CITIUS (international telecommunications transit operator), OFFRATEL (first Internet Service Provider (ISP) in New Caledonia and FIPOSTE (dedicated to support the project of creating a new local bank).

About APNIC Conferences

Since 1995 APNIC has held two conferences per year throughout the Asia Pacific region. They have become an important forum for the Internet community to exchange information on the latest developments in Internet operations and technology, and formulate Internet addressing policies through a community-driven policy

development process. These conferences also provide many opportunities for hands-on training and professional networking.

The APNIC 46 conference will be held in Noumea, New Caledonia, from 6 to 13 September 2018.

The APNIC 46 conference has an eight day program consisting of workshops and a conference, where attendees can access practical and valuable information to help them build and manage the Internet. This includes tutorial and plenary sessions on network security, IPv6 deployment, DNSSEC, and routing. The information presented at APNIC conferences helps organizations in the Asia Pacific make informed network management decisions.
