KRNIC

IRINN

NIR SIG@APNIC35

- Tue 26th Feb, 9:00-10:30
- Roughly 30-40 attendees
- Agenda topics
 - Updates of activities from 4 NIRs
 - IRINN,CNNIC,VNNIC,TWNIC
 - IPv6@APNIC
 - Future of NIR SIG

Major Topics

- IRINN taking off
 - 71 affiliates, 240 affiliates by Mar 2014
 - Supports 8 languages, have conducted roads shows
- IPv6 related activities
 - CNNIC - Upgrading DNS to IPv6 (National project driven by the Chinese government)
 - VNNIC - 6th May 2013 National IPv6 Event in Ho Chi Ming City, project to promote small and medium ICT enterprises in ASEAN countries
 - TWNIC - training program on IPv6 routing, manual on IPv6
 - IPv6@APNIC - collaboration welcome with NIRs

Future of NIR SIG

- Consider a non-SIG format from APNIC36
 - No proposals since APNIC25 (Feb 2008)
 - Will not change the contents and simply will not be called a SIG – no formalities of elections
 - No opposition expressed at the session
 - Will continue to seek opinions on the mailing list
- Other related discussions
 - Have information exchange based on specific topics: IPv6, IPv4 transfers, DNSSEC, RPKI
 - Economies based situation, co-ordination with government

Next Step

- We will have a comment period on the NIR SIG mailing list about changing into a non-SIG format
 - 8 weeks comment period
- For issues raised as other related discussions, Chair/Co-Chair will consider what can be done and share idea on the mailing list
